

Multiple sources and displays at your control

Scenario: Meeting Room

A gaming company conducts regular sales meetings wherein the president presents gaming market information from different regions. The company wants a solution that enables the president to control and switch from different sources to different displays using a wireless console (monitor, keyboard and mouse) that is compatible with their current installation.

● ATEN Solutions

CS1708A/CS1716A PS/2-USB KVM Switch

The CS1708A/CS1716A KVM switch is a control unit that allows access to 8/16 computers from a single PS/2 or USB console (keyboard, mouse, and monitor). As many as 31 additional switches can be daisy-chained to each other, so that up to 256/512 computers can all be controlled from a single console.

VE800 HDMI Extender

The VE800 HDMI Extender extends your HDMI display up to 60 m away from your HDMI source using two Cat 5e cables. It is equipped with HDMI connectors providing greater flexibility and installation options when integrating HDMI components.

↘ Benefits

- Control high definition content on multiple display from one wireless console
- Superior Video Quality
- Compatible with HDMI Matrix switches
- Extends the distance between HDMI source and HDMI display
