VS431

4-Port HDTV A/V Switch

The 4 port VS431 makes plugging and unplugging devices a thing of the past. This high quality component video (YPbPr) switche with on-board stereo audio is perfect for HDTV enthusiasts who want to add more inputs to their high-definition display. Use the VS431 to effortlessly connect a DVD player and set-top box or satellite receiver to your HDTV or projector.

Or, for the home theatre buff, the VS-431 provides a complete switching solution. The IR remote is an added convenience, allowing you to enjoy multimedia switching from the comfort of your seat. The VS431 HDTV switche supports high-end digital video devices such as DVD players and recorders, set-top boxes, satellite receivers, and more. It also works well for high-definition editing systems.

Egenskaper

- Displays the video output of four digital devices on a single high definition monitor or projector.
- Stereo audio support.
- Quick and easy switching via front panel pushbuttons or IR remote control.
- Electronic switching for greater reliability and durability.
- Easy installation.
- Complete home theater switching solution.
