

Compatible Transmitter

Input Boards	Transmitters	Distance Transmissions	RS-232	IR*	4K**
VM7514	VE801T	60 m			○
	VE802T	60 m	○	○	○
	VE812T	100 m			○

Note: * Supports full frequency IR signals from 30 KHz to 60KHz; however the IR receiver cable included with the package only supports 30KHz to 56 KHz.

** 4K resolutions are only available when the scaler is disabled. When the scaler function is implemented the highest resolution available is 1080p. The scaler function is enabled by default.
