

CE300

Audio KVM Extender

The CE300 offers Auto Signal Compensation(ASC), and provides conevenient access to your system from a remote keyboard, monitor, and mouse console that can be up to 100m away using. The CE300 uses traditional PS/2 connectors for the console keyboard and mouse. The CE300 is also audio enabled. Fast, reliable, Cat 5e cable is used to make the remote connection. With a high end <u>KVM Extender</u>, sensitive system equipment can reside in a safe, secure, environment, and accessed from a console conveniently located where the work gets done.

Features

- Uses Cat 5e cable to connect the local and remote units (up to 100m apart)
- Dual Console Operation control your system from both the local and remote consoles (PS/2 Keyboard, Mouse, Stereo Speakers, Stereo Microphone and Monitor)
- Supports Stereo Speakers and Stereo Microphone
- Pushbutton selection sequential selection between local and auto mode
- Automatic Gain Control automatically adjusts signal strength to compensate for distance
- Built-in ASIC for greater reliability and compatibility
- High video resolution up to 1280 x 1024
- Supports DDC2B for local monitor (display data channel for communication between graphic card and monitor)
- Supports VGA, SVGA, and Multisync Monitors
- Firmware Upgradable
- Multiplatform support: Windows 2000/XP/Vista and Linux.
