

CL6708MW

8-Port USB DVI Single Rail WideScreen LCD KVM Switch

The CL6708MW brings additional versatility to ATEN's line of [LCD KVM Switches](#) with its native DVI compatibility. Building on ATEN's renowned, [space-saving](#) approach to KVM switches – which integrates an LCD panel, full keyboard, and touchpad into a streamlined, 1U housing – the CL6708MW is a highly-scalable [LCD KVM switch](#) which features the ability to control up to 64 computers by cascading 8 additional [CS1768](#) 8-port KVM switches.

Featuring an integrated 17.3" LED-backlit LCD panel capable of full HD 1080p video – greater clarity than typical analog interfaces – the CL6708MW incorporates the YUV video format for greater compatibility with high-definition signals (e.g. NVR sources). Similarly, the CL6708MW is High-Bandwidth Digital Content Protection ([HDCP](#)) compatible, making it well-suited for use with content-protected media in corporate, educational, and commercial settings.

To further enhance usability, ATEN's LED illumination light is included to ensure keyboard and touchpad visibility in low-light conditions.

Note: Optional rack mount kits are available. For more information, refer to Compatible Accessories below.
