
IC1394

3-Port FireWire PCI card

IC1394 is a hub with 3 built-in IEEE 1394 ports for expanding computer peripherals.

Features

- Firewire to PCI adapter card supports digital camcorders, hard drivers, scanners, and more.
 - Provides 3 independent, fully functioning downstream ports.
 - IEEE 1394, IEEE-1394a Compliant.
 - Supports transfer speeds of up to 100, 200, and 400 Mbps; automatically uses the highest speed the peripheral supports.
 - Supports hot swapping.
 - Installs inside the computer: save space; allows for a neat and tidy work environment; no cable mess on the desktop.
 - Supports up to 63 daisy-chained external devices running simultaneously.
 - OS Support: Windows 2000, Windows XP, [Windows Vista](#)
-
