

## 2A-128G

HDMI to DVI Adapter

The 2A-128G HDMI to DVI Converter is a bi-directional converter that allows you to connect an DVI display to a device with a HDMI display output, or display an DVI signal on a HDMI monitor.

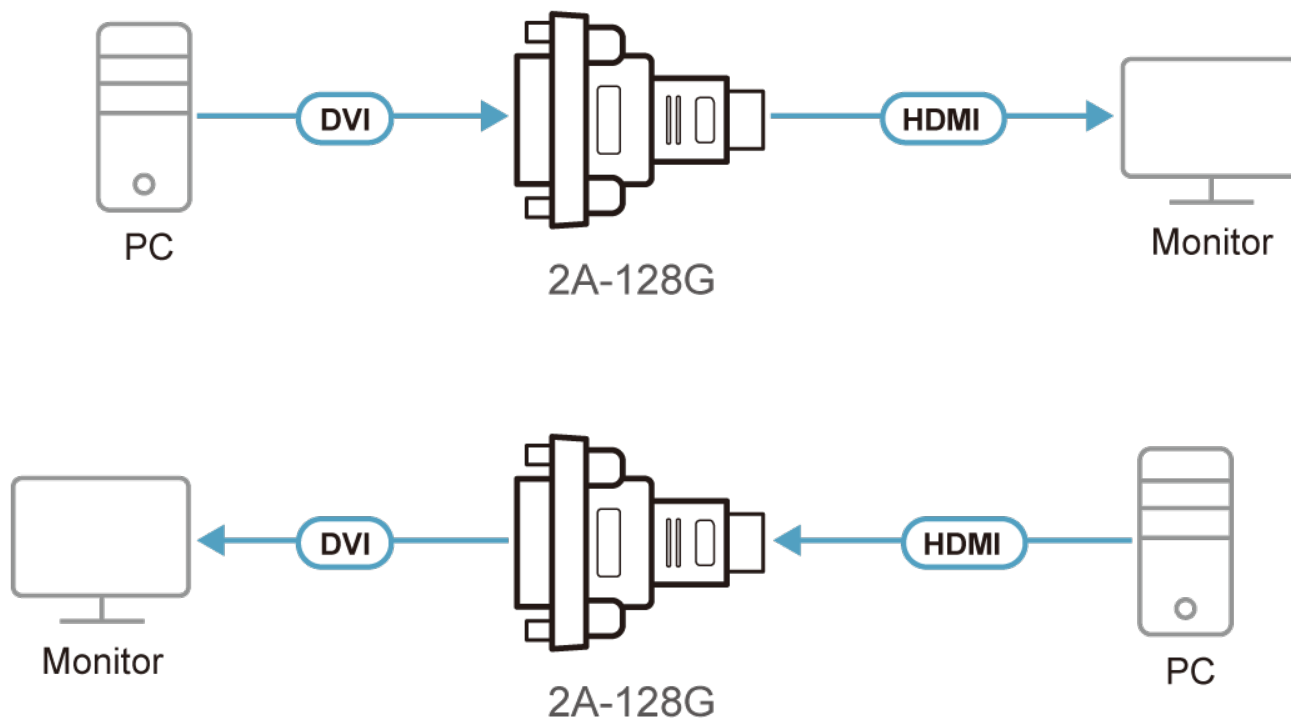

### Features

- Connects an DVI display to a device with a HDMI display output
- Bi-directional converter allows DVI-D / HDMI signal to be displayed on a monitor with an HDMI / DVI input

### Specifications

|                        |                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Interfaces             | HDMI to DVI                                                                                                                     |
| Max. Video Resolution  | 1080p; 1920 x 1200                                                                                                              |
| Housing                | Plastic                                                                                                                         |
| Physical Properties    |                                                                                                                                 |
| Weight                 | 28 g                                                                                                                            |
| Dimensions (L x W x H) | 5.72 x 4.05 x 1.62 cm                                                                                                           |
| Note                   | For some of rack mount products, please note that the standard physical dimensions of WxDxH are expressed using a LxWxH format. |
