

ControlAssist

ATEN Control System - PC Control Tool

Control Assist allows you to remotely control a computer to perform actions such as working with PowerPoint files, playing media files, or turning off a PC using a licensed mobile device. This functionality is especially helpful in meeting room or conference applications where a presenter needs to control PowerPoint files from a computer, and at the same time has control over other equipment, such as the lights, projectors, and video walls, that may need adjustments as the meeting progresses.

Features

- Remote PC Control function
- Remote PC shutdown*
- Remote browsing and control of media files
- Remote preview and control of PowerPoint files
- Remote PC volume control
- Remote execution of programs
- Remote opening of files and URLs
- Simulate hotkey combination for 3rd party software control
- Support Windows prompt commands
- Keep an application window on top of other windows

* Note: Remote PC power on can be done via Wake on LAN function.
