Features

The ATEN Video Presentation Control App is a free mobile app that supports iOS and Android operating systems. It provides direct and easy access to collaborate and control meeting presentations directly from one's mobile device.

- Multiple Login Options
  - Auto scan the local network for devices or use the QR code/room code to log in.

- Bi-directional Wireless Streaming
  - Stream presentation content from your mobile device with ease or 'Go Live' to share content to participants located elsewhere.

- Quad View with Auto Layout
  - Shows up to 4 streamed-in sources and dynamically adjusts the screen layout per the number of sources.

- Advanced Collaboration Features
  - White Board : take notes or make annotations on any file in real-time.
  - Chat Room :allows participants to chat with each other or send files instantly.
  - Easily Switch Video Sources: drag and drop to route multiple video sources to multiple displays effortlessly.
  - Group Broadcasting : speak to remote participants using your own device.
  - Intuitive Control : wrapped in an intuitive user interface, this app allows for audio stream controlling, layout setting, and more.

    Note: The features that you have access to will vary depending on the models you are using. The models the app currently supports: ATEN VP1420, VP1421, VP2120, VP2730, and VP3520.
