

VP200

PresentON® Wireless Dongle for Presentations

The VP200 works in conjunction with the [VP2020 / VP2021](#) 4K Wireless Presentation Switch to take BYOD to the next level. Plug-and-play allows users to instantly share content from their own USB-C laptops wirelessly, eliminating restrictive cables as well as the installation of any software or driver. Due to the VP200's crossplatform compatibility, participants can host meetings on any operating system. The VP200 does not just help foster greater engagement and collaboration among the organization and the remote team members but also save overall costs.

Features

- Plug-and-play for instant, wireless A/V content casting and power supply via a single USB-C port
- Bring Your Own Device (BYOD) – share content from users' USB-C laptops / mobile devices wirelessly
- OS-independent – work on Windows / macOS / Linux with no need of software / driver installation
- Point-to-point wireless transmission via native mirroring when connecting to [VP2020 / VP2021](#)
