
VW-FAN556

VW3620 Fan Module

VW-FAN556 can be installed in the ATEN [VW3620](#) 36 x 20 Modular Video Wall Processor to optimize airflow, preventing the risk of system failure due to overheating. The fan module is hot-pluggable and can be easily replaced without shutting down the system, ensuring 24/7 operation in any mission-critical video wall applications.

Specifications

Video Wall Processor Fan Module	VW-FAN556
Airflow	55.2 cfm
Operating voltage	10.2 - 12Vdc
Operating Temperature	-10 - 60°C
