A well-known international bank in Thailand utilizes an ATEN HDMI Splitter to provide superior customer service
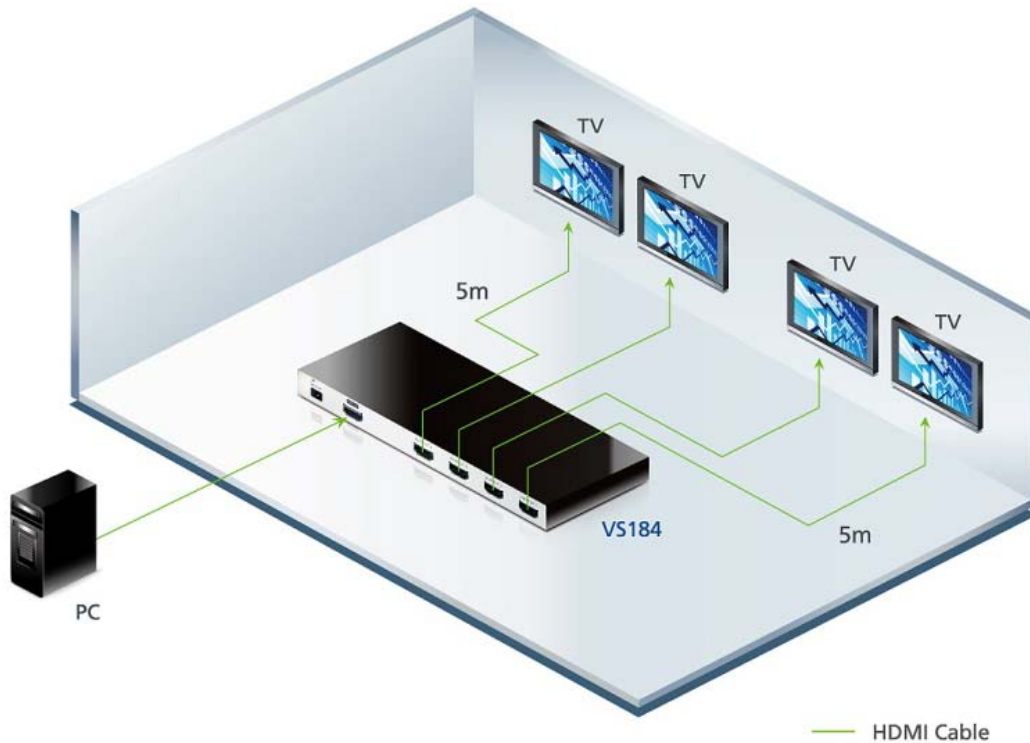

Overview: Bank

An international bank group has opened several branch offices in Thailand to provide localized retail banking services. To clearly display important financial information, they want to install a high definition digital signage system in each of the branch offices. In order to accomplish that, they need to devise an HDMI distribution solution that can deliver high-definition HDMI content from a source device to multiple HDMI displays that have been strategically located throughout the office.

Solution

VS184 x 20
4-Port HDMI Splitter

Benefits

- **One Source to Multiple Displays** – permits financial information from a single feed to be simultaneously displayed on up to 4 strategically located monitors
- **Long Distance Transmission** – delivers HDMI signals over distances of up to 20 m
- **High Quality HDMI** – supports HDTV video resolutions of up to 1080p
- **Space Saving** – VS184 splitters are both compact and robust – their small size allows them to be flexibly deployed for convenient installation

Features

VS184
4-Port HDMI Splitter

- Transmits signals from 1 HDMI A/V source to 4 HDMI displays simultaneously
- Superior video quality – HDTV resolutions of 480p, 720p, 1080i and 1080p (1920x1080); VGA, SVGA, SXGA, UXGA (1600x1200), WUXGA (1920x1200)
- Cascadable to 3 levels - provides up to 64 HDMI signals
- Long distance signal transmission: Source to Device - 1.8m; Device to Device - 15m; Device to Display - 20m (24 AWG)
- HDMI (Deep color)
- DDC compatible
- HDCP 1.1 compatible
- Signal rates of up to 2.25Gbits for 1080p display
- All metal case
- LED display indicates device status
- Plug-and-play - no software installation required
