CE252

PS/2 VGA Cat 5 KVM Extender with Extra Remote PC (1024 x 768@300m)

The CE252 allows access to your KVM installation through a local console,or a remote console placed up to a distance of 300m(1000') away. Both the local and remote units support PS/2 consoles. In addition to these features,the CE252 includes a convenient port at the remote unit to connect an extra computer. This allows the remote user to combine their desktop computer with the remote console for increase efficiency and productivity.
Features

- Uses Cat 5e cable to connect the local and remote units (up to 300m apart)
- Dual Console Operation - control your system from both the local and remote PS/2 keyboard, mouse and monitor consoles
- Additional PC connection allowed for the remote unit
- Pushbutton selection - sequential selection between local and auto mode
- Two gain control modes provided for the sharpest video quality-adjustable or automatic
- Adjustable gain control - manually adjusts signal strength to compensate for distance
- Automatic Gain Control - automatically adjusts signal strength to compensate for distance
- High video resolution - up to 1600 x 1200
- Supports DDC2B for local monitor (display data channel for communication between graphic card and monitor)
- Supports VGA, SVGA, and Multisync Monitors
- Built-in 8KV ESD protection and 2KV surge protection
- Local unit takes its power from the computer - external power is only required when the power from the local computer/computers in the KVM installation is insufficient
- Multiplatform support: Windows 2000/XP/Vista.
