

VS201

2-Port VGA Switch Wall Plate

The VS201 Video Auto Switch is an automatic video switch that is ideal for monitors using analog signals. In addition, the VS201 boosts signals, allowing long distance transmission of up to 65 m (210 feet).

A slide switch sets the priority for the incoming video signals for display on the monitor, and the VS201 automatically selects the proper input signal for its output port. Both features make the VS201 an excellent choice for educational environments.

Features

- Displays the video output of two computers on a single monitor or projector
- Automatic incoming signal selection (Auto)
- Quick and easy switching via slide switch
- Long-distance transmission – up to 65 m *
- Superior video quality – up to 1920 x 1440
- Supports VGA, XGA, SVGA, UXGA and multisync monitors

* Video content sent over very long distance using a VGA cable might result in slight degradation of the video signal and quality.
