

HVP-0619

6U Hinged & Vented Rack Panel

ATEN offers a diverse range of flexible rack accessories designed to support IT personnel in managing rack installations and equipment. All accessories are built for functionality, ensuring safe equipment operation and user safety, while allowing for versatile application across different rack configurations.

The ATEN 6U Hinged & Vented Rack Panel complies with the latest EIA / ECA-310-E standards. It is ideal for quickly covering unused rack spaces, helping to prevent foreign object intrusion and ensuring the safe and stable operation of rack-mounted equipment.

The hinged design supports both left- and right-side opening directions, allowing flexibility to match the layout of your server room or data center, and improving maintenance accessibility for IT personnel. Additionally, the front-facing ventilation slots enhance airflow and heat dissipation within the rack. Compatible with ATEN and other standard 19-inch server or network racks.

Features

- Complies with the latest EIA / ECA-310-E standards
- Quickly covers unused rack space to prevent foreign object intrusion
- Hinged design supports left or right-side opening for flexible operation
- Ventilated panel enhances internal airflow and cooling efficiency
- Compatible with ATEN and other 19-inch standard server/network racks

Specification

Function	HVP-0619
Part Number	RA2200-AT
Physical Properties	
U Spaces	6U
Overall Height	266 mm
Overall Width	482 mm
Overall Depth	19 mm
Thickness	1.2 mm
Color	Black
