

## Customized presentations with multiple sources and displays

### Scenario: Meeting Room

An IT company holds meetings wherein staff members need to demonstrate and show the presentations on three big screen projectors. They want a solution that enables them to switch between 8 sources, and choose those they need to show on the three projector screens.

### ATEN Solutions

#### VS291 2-Port Video Switch

The VS291 is a video switch with 2 ports. It allows 2 independent computers to display their video outputs on a single monitor. Therefore, users will not need to buy monitors for each computer additionally.

#### VS0404 Video Matrix Switch (4 inputs, 4 outputs)

The VS0404 Video Matrix Switch allows video and audio from 4 computers to be routed to 4 monitors, projectors and speakers. Ideal for presentations and applications where information from multiple computers is being delivered to multiple destinations.

#### VS132 2-Port Video Splitter

The VS132 Video Splitter is a boosting device to duplicate the video signal from one source to two outputs, and is ideal for any monitor using analog signals. The VS132 also extends the transmission distance up to 65 m (210 feet) making it excellent for public broadcast systems.

### Benefits

- Displays the video output of two computers on a single monitor or projector
- Computer selection via pushbutton switch.
- High resolution video – up to 1920 x 1440
- In combination with 2 sets of VS0404, each of the 8 video outs can toggle between Source 1 and Source 8 using front panel pushbuttons
- Long Distance Transmission – up to 65 m (210 ft)

## Setup
