

CL3108

8-Port PS/2-USB VGA Single Rail WideScreen LCD KVM Switch

The ATEN CL3108 LCD KVM Switch offers a space-saving, streamlined approach to KVM switch technology by integrating a keyboard, 18.5" LED-backlit LCD monitor, and a touchpad in a 1U rack-mountable sliding housing. The short-depth design maximizes space utility for equipping rack-mounting devices in narrow spaces. In addition, its exclusive LED illumination light provides users with proper visibility when working in low-light conditions.

The CL3108 can control up to 8 computers; when 8 additional KVM switches are cascaded, a single CL3108 LCD KVM Switch can control up to 128 computers. To achieve greater operational efficiency, the CL3108 offers Broadcast mode, which the console spreads out the commands to all computers to perform operations simultaneously. Besides, the Auto scan mode fulfills the needs for continuous monitoring a specific group of computers, and establishing a reliable working environment for users.

To enhance information safety, the CL3108 provides two-level password security which restricts unauthorized users from viewing and controlling the computers. For added convenience, the CL3108 comes with an additional hot-pluggable USB mouse port that only supports HID device for keyboard and mouse.

As a feature-rich LCD KVM Switch, the CL3108 is aimed not just to achieve but exceed the requirements for space utility optimization, superior video quality, adaptive deployment, and operational versatility, and thus is ideal for control rooms with limited space in any industry.

Note: Optional rack mount kits are available. For more information, refer to Compatible Accessories below.

Features

• Space Utility Optimization

- Exclusive LED illumination light – designed by ATEN to illuminate the keyboard and touchpad to allow visibility in low-light conditions
- Integrated LCD KVM console with an 18.5" LED-backlit widescreen LCD monitor in a single rail housing with top and bottom clearance for smooth operation in a 1U high system rack
- Short-depth design allows you to work with your rack-mounting equipment in narrow spaces
- Console lock – enables the console drawer to remain securely locked away in position when not in use

• Reliability and Operational Versatility

- Superior video quality - up to 1366 x 768 @60Hz; DDC2B
- Cascade up to 2 levels – CL3108 controls up to 128 computers from a single console (With compatible KVM Switches: [CS1308/CS1316](#))
- Dual Interface – supports computers with PS/2 or USB keyboards and mice
