

CS1016

16-Port PS/2 KVM Switch

CS1016 KVM Switch is designed according to the needs of server rooms of larger scale. It uses the DB-25 interface to integrate relevant signals, reduce cable derangements, and enhances signal quality and operation efficiency. CS1016 supports OSD (On Screen Display) menu function to facilitate operators to switch between computers. It also supports microphone and amplifier functions.
