

## **KN2116**

16-Port KVM Over the NET™

The KN2116 KVM Over the NET Switch series offers a practical and affordable management solution for <u>data centers</u> housing a large number of servers. These switches are ideal for network administrators who are responsible for mission critical operations and require 24H/7D server room access. The KN2116 allow 3 administrators- one logged in at a local console; the other two logged in remotely from any IP connected web browser-and up to 32 users to securely monitor, manage, troubleshoot or run applications from up to 16 connected devices respectively.
