

CS1148D4

8-Port USB DVI Dual Display Secure KVM Switch (PSD PP v4.0 Compliant)

ATEN PSD PP v4.0 Secure KVM Switch CS1148D4 is specifically designed to meet the stringent security requirement of secure defense and intelligence installations. ATEN PSD PP v4.0 Secure KVM Switch CS1148D4 is compliant with PSD PP v4.0 (Protection Profile for Peripheral Sharing Device, Version 4.0) standard certified by the National Information Assurance Partnership (NIAP).

ATEN PSD PP v4.0 <u>Secure KVM</u> Switch CS1148D4 provides isolation between computer sources and peripherals while sharing a single keyboard, mouse, monitor, and speaker set between connected computers of various security classifications. Compliance with PSD PP v4.0 ensures peripheral sharing capabilities provide maximum user data security when switching port focus, preventing unauthorized data flows or leakage between connected sources. Key protections include isolation and unidirectional data flow, restricted peripheral connectivity and filtering, user data protection, configurable device filtration and management, strict audio filtration, and always-on tamper-proof design, keeping sensitive assets isolated and providing advanced security and a user friendly design for instantly secure deployment.

To enhance security, ATEN PSD PP v4.0 Secure KVM Switch CS1148D4 only offers manual switching methods including front panel pushbuttons and Remote Port Selector (RPS) 1. With multi-layered security, ATEN PSD PP v4.0 Secure KVM Switch CS1148D4 ensures high-level desktop security and data safekeeping for applications such as government and military agencies, healthcare providers, banking and finance institutions, and other organizations that often handle sensitive or confidential data on separate networks.

Note:

The Remote Port Selector is not supplied in the package and requires a separate purchase.

Features

• NIAP Common Criteria Compliant

• Compliant with PSD PP v4.0 (Protection Profile for Peripheral Sharing Device, Version 4.0) security requirements

Multi-Layered Security

- Always-on chassis intrusion detection renders the ATEN PSD PP v4.0 Secure KVM Switch series inoperable when physical tampering is detected
- Tamper-evident labels provides visual indication of any attempt to access the ATEN PSD PP v4.0 Secure KVM Switch's internal components
- Non-reprogrammable firmware prevents reprogramming the ATEN PSD PP v4.0 Secure KVM Switch's firmware
 Restricted peripheral connectivity non-authorized HIDs (Human Interface Devices), and video are rejected
- Port selection via pushbuttons / Remote Port Selector (RPS) 1 only to enhance security
- LED indicators for peripheral filtering and KVM security status Strict audio filtration protects against audio leakage
- Rugged metal enclosure

Data Channel Isolation and Unidirectional Data Flow

- True data path isolation data cannot be transferred between computers
- The ATEN PSD PP v4.0 <u>Secure KVM</u> Switch controls and isolates data flow between console devices and connected computers
- Unidirectional data flow between console devices and the selected computer is ensured
- $_{\circ}\;$ Supports analog audio (speaker only) 2

· User Data Protection

• The ATEN PSD PP v4.0 Secure KVM Switch's keyboard / mouse data is automatically deleted after transmission and automatically purged when the KVM port focus is switched

Security Management

- Supports administrative configuration of keyboard / mouse ports filtering to reject specific USB HID devices
- Provides administrative functions for authorized administrators to audit KVM log data

Superior Video Quality

- $_{\circ}\,$ Superior video quality up to 4K (3840 x 2160 @ 30 Hz) $^{3}\,$
- Video DynaSync™ Exclusive ATEN technology eliminates boot-up display problems and optimizes resolutions when switching among different sources
 - 1. The Remote Port Selector is not supplied in the package and requires a separate purchase.
- 2. Only analog speaker data input is supported.

 3. The DVI Secure KVM Switch series offers up to 3840 x 2160 @ 30 Hz video output on compatible HDMI-interfaced monitors / computers with ATEN DVI-to-HDMI KVM cables.
