

VK108US

ATEN Control System - 8-button Keypad (US, 1 Gang)

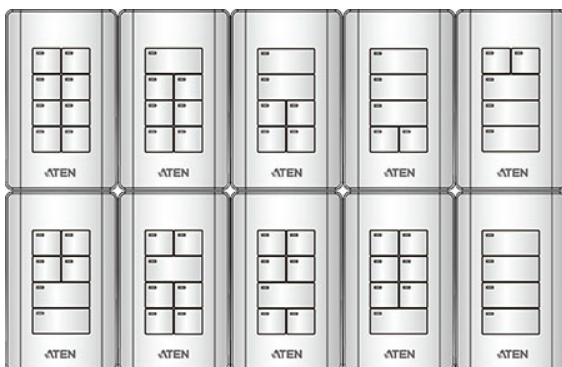

The VK108US is a fully-customizable 8-button keypad designed for use with the [ATEN Control System](#). The keypad provides an interface to control devices in a room from a standard wall mounted faceplate. Created with flexibility in mind, the one-gang keypad can be laid out in 14 different combinations of 4 to 8 buttons that snap together as easy as Lego's. By connecting to the [VK2200](#) / [VK1200](#) / [VK2100A](#) / [VK1100A](#) Control Box or [VK0100](#) / [VK0200](#) Control Pad over a LAN, users will find it's effortless using [VK6000](#) software to configure the desired control of any connected device from the keypad. With the button's ready to go, users have instant and smart control of the facilities from a keypad or keypads that can manage any device in the room. The VK108US is an affordable solution, perfect to serve as the primary interface in small [meeting rooms](#), or as secondary device control in [classrooms](#) and conference centers.

Note: This model is also available in black color – Part number: VK108US1, which is a built-to-order product. To place an order, please contact your regional ATEN representative.

Accessories:

*The power adapter for this product is sold separately. For more information about this accessory, see [Accessories](#).

Keypad Layout Example

Custom button placement on the keypad can be set in 14 different combinations of 4 to 8 buttons. The example above shows the 10 most commonly used.
