

VE814T

HDMI HDBaseT Transmitter with Dual Output (4K@100m)
(HDBaseT Class A)

Place your HDMI displays up to 100 meters away from your HDMI source devices with the VE814T HDMI Transmitter over single Cat 5 with Dual Display. Connecting to the [VE814R](#) receiver via affordable and easily available Cat 5e/6 cable, your media can be streamed to up to three HDMI displays – dual displays connected to the receiver and another to the transmitter.

The VE814T also carries an Ethernet pass-through port for Internet connectivity, as well as RS-232 and IR signaling pass-through, which allows you to control the HDMI source device from the remote unit ([VE814R](#)) while also granting access to the HDMI display device from the local unit (VE814T). The VE814T is HDMI (3D, Deep Color, 4Kx2K) and HDCP compatible, ensuring superior video quality and peak performance from your HDMI displays.
