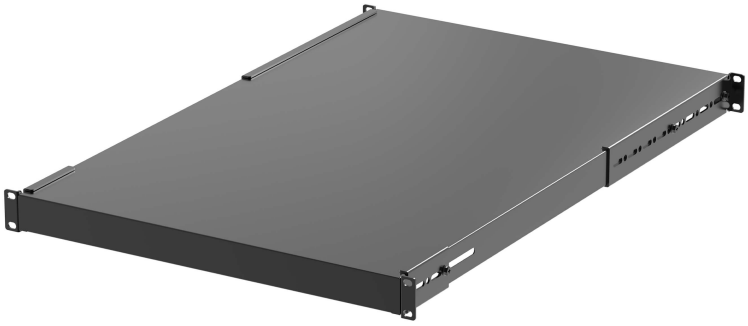
AP-7019S

Adjustable Rack Shelf (Non-vented)



ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be applied flexibly to meet different rack configuration needs.

The ATEN Adjustable Rack Shelf complies with the latest EIA / ECA-310-E standards and is designed to support medium to large-sized equipment such as servers and network switches. With a maximum load capacity of up to 90 kg, it provides strong and reliable support.

The shelf features a 1U height design and a shelf depth of 700 mm, offering ample surface area. The front and rear mounting brackets support an adjustable installation depth ranging from 370 mm to 920 mm, allowing flexible installation based on the rack structure. It is compatible with ATEN and other 19-inch rack brands and can be mounted at any height on adjustable vertical rails to accommodate a wide range of deployment needs.

Features

- Complies with the latest EIA / ECA-310-E standards
- 1U height design; adjustable mounting depth from 370 mm to 920 mm
- Supports medium to large equipment such as servers and network switches, with a maximum load capacity of 90kg
