5U Blank Rack Panel (1 set 2 pcs)

ATEN offers a wide range of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be easily applied to different rack configurations.

The ATEN Blank Rack Panel complies with the latest EIA/ECA-310-E standards and features a tool-free installation/removal design. It provides essential functions such as rack space filling, airflow management, dust protection, and visual appeal, contributing to the stable and secure operation of equipment.

Note: Blank Rack Panels are sold in sets of 2 pieces.

Features

- Provides rack space coverage, airflow control, dust protection, and aesthetic appeal
- Built to EIA/ECA-310-E specifications for safe, durable, and secure use
- Compatible with ATEN and third-party 19-inch racks, server racks, and network racks
