

CE120

PS/2 KVM Extender

CE120 KVM Extender is a console extender with built-in PS/2. It allows remote users to connect and access to the server devices via the console. Users will only need to install it by connecting some cables, without using additional tools or software.

특장점

- One unit handles keyboard, monitor and mouse extension
- Transmission distance of up to 80m
- Suitable for PS/2 computers
- Plug and Play operation - No tools required - just plug in the cables
- Supports SVGA, VGA, and Multisync monitors
- Multiplatform support: Windows 2000/XP.
