Simply Better Connections

CC1000

Control Center Over the NET™

The CC1000 Control Center Over the NET™ provides centralized access,administration, and management of your data centers - local and worldwide at anytime, from anywhere. This software based solution consolidates the management of your ALTUSEN " Over the NET™ " devices, providing a convenient, flexible way to meet your IT infrastructure needs.

* **Web Browser - Single IP Access**
* **Tight Security Regulates User Access and Control**
* **Scalability Expands to Fit Your Individual Needs**
* **Monitoring, Diagnosis, and Resolution of Network Problems Made Easy**

Dual Access - Direct or via the CC1000

Manage your servers anytime, anywhere

Adding groups, and devices, couldn't be simpler

특장점

- **Secure Centralized Management**
  • Complete control of your enterprise - consolidates the management of all ALTUSEN / ATEN IT devices
  • Single IP address to securely access every device on the installation
  • All devices are integrated into a single tree view for centralized access, administration, and management of a worldwide network from anywhere at anytime
  • Web browser access over Internet/Intranet provides secure remote connections to all installed devices
  • Windows and Java versions for multiplatform support
- **Highlights**
  • Ideal for enterprises with one or more data centers, or a number of remote offices
  • Easy to use - intuitive browser-based GUI for simplified access to IT equipment in global data centers and remote offices
  • Scalability - Multi-user access to hundreds of ALTUSEN / ATEN IT appliances and more than ten thousand servers and serially controlled devices
  • A single login provides secure, centralized management of multiple data centers, branch offices and remote locations
  • Provides centralized management, Role-Based Access and Control(RBAC), and Reporting Capabilities
- **Powerful Security**
  • Powerful security features that enable integration with Active Directory external authentication tools
  • Robust security policies for individual user authorization to the port level
  • 128-bit SSL encryption of all data on the network
  • Flexible session time-outs
  • "Strong" user name and password authentication
- **Network Interfaces**
  • TCP/IP
  • HTTP / HTTPS
  • SSL
  • DNS
  • LDAP / LDAPS
- **Software Features**
  • All features - including access, configuration and administration accessible
  • Powerful portal-like interface provides customized permission-based groupings and device views
  • ALTUSEN / ATEN IT appliance auto-discovery with device-availability status, and alarms
  • Java client for multiplatform access
- **Access and Control from Anywhere at Anytime**
  • An array of flexible logging and reporting options with audit trails for diagnostics and troubleshooting
  • View and manage active user sessions and active ports in real time
- Multiplatform support: Windows 2000 Server/2003 Server/XP/ Vista, RHEL AS 4.0 and Fedora Core 4.
- For more information about KVMs which can connect to CC1000, see Compatible KVM Table
