Simply Better Connections

CE800

USB KVM Verlenger

The CE800 allows access to your KVM installation through a local console, or a remote console placed up to a distance of 250m(825ft) away. Both the local and remote unites support USB consoles(monitor, keyboard, and mouse), with the addition of a USB peripheral port on each unit. This port provides file swapping from mass storage devices and includes file sharing security features.

Opties

- Uses Cat 5e cable to connect the local and remote units (up to 250m apart)
- Dual Console Operation - control the system from both the local and remote consoles (USB Keyboard, USB Mouse, Stereo Speakers, Stereo Microphone and Monitor)
- Supports Stereo Speakers and Stereo Microphone
- Additional USB outlet for easy file sharing capabilities
- Special security login for uploading USB files
- Remote mass storage supports
- Pushbutton selection - sequential selection among three operation modes of local, auto and remote
- Adjustable gain control - manually adjusts signal strength to compensate for distance
- Built-in 8KV ESD protection and 2KV surge protection
- Built-in ASIC for greater reliability and compatibility
- Supports Microsoft intelligent Mouse and the scrolling wheel on most mice
- High video resolution - up to 1600 x 1200
- Supports DDC2B for local monitor (display data channel for communication between graphic card and monitor)
- Supports VGA, SVGA, and Multisync Monitors

* The flash drive facility may not be fully supported in a KVM installation
