

CS62T

2- Port USB KVM Switch with File Transfer

The CS62T improves on prior models in the Cable KVM series, by combining a 2-port KVM switch enabling it to provide USB peripheral sharing and USB file sharing between the connected computers – ideal for syncing files, folders between portable and desktop computers.

Featuring an unbeatable combination of USB peripheral sharing, USB file management, audio support for multimedia and user-friendly operation, the CS62T offers the utmost in desktop KVM switching functionality.

Egenskaper

- One USB console controls two USB interface computers
- [USB File Management](#) -transfer files between connected Windows based computers - sync files, folders
- USB mouse port can be used for USB hub and USB peripheral sharing
- Computer selection via hotkeys and mouse*
- Hotkey selection for OS and keyboard language
- Audio-enabled - full bass response for 2.1 surround sound
- Multiplatform support - Windows, Linux, Mac, and Sun
- Compact design, built-in all-in-one cables (2 x 0.9 m)
- [Video DynaSync™](#) - exclusive ATEN technology which eliminates boot-up display problems and optimizes resolution when switching between ports
