All references to and depictions of compatible products, including those produced by Apple, or Elgato, are for compatibility demonstration purposes. We do not intend to suggest any endorsement or affiliation by or affiliation with those product manufacturers.

The US5324 is a 2-Port USB 3.2 Gen 1 Sharing Switch designed to simplify cable sharing between computers using both USB-A and USB-C ports, making it ideal for professional and personal workspaces. With intuitive plug-and-play operation and a space-efficient design, the US5324 is your best companion for any desk setup—whether you're working, studying, or gaming. Featuring IntelliPort™, you can easily switch around up to four USB-A peripherals and one USB-C peripheral between two computer systems, all while keeping your desktop tidy and clutter-free.

Sleek.

Compact.

Portable.

Features

- InstaSync™ Technology
 - Fast USB switching capability that keeps the flow smooth and uninterrupted
- Four USB Device Sharing Across One USB Type-A and One USB-C Computers
 - Farewell to the need of swapping cables and peripherals between two separate computers
- 5 Gbps Data Transfer with USB 3.2 Gen 1
 - Up to 5 Gbps SuperSpeed data transfer rates, which is about 10 times faster than the USB 2.0 standard, allow users to transfer large files quickly and efficiently
- Quick Switch via Built-In Pushbutton and Remote Port Selector
 - Enjoy the hassle-free experience of switching USB peripherals between two systems with just one single press to the button on US5324 or the remote port selector (package included)
- Compact Enclosure with Accent Lighting
 - Aesthetically pleasing with its accent lighting and a casing so compact that it occupies very little space
- Hot Pluggable
 - Allows adding / removal of the peripherals/computers connected to the installation without having to power down the switch. Besides, no drivers or software is required
- OS Independent
 - Compatible with mainstream operating systems including Windows, macOS, and Linux
