Simply Better Connections

VM-FAN554

VM1600A Fan Module - TAA Compliant

Overheating slows down device performance significantly and can result in equipment breaking down mid-operation. The VM1600A is equipped with a fan module that ensures a cooling system is in place to keep the device from overheating. The fan is hot-pluggable and can be easily replaced without shutting down the system. ATEN ensures that your investment is protected while delivering outstanding performance.

Specification

Video Matrix Fan Module	VM-FAN554
Airflow	55.2 cfm
Operating voltage	10.2 - 12Vdc
Operating Temperature	-10 - 60°C
