20 m Cat 6 Extension Cable

ATEN Cat 6 Extension Cable with gold-plated RJ-45 connectors provides superior transmission of data. Our unshielded twisted pair design offers thin, flexible, and reliable connectivity in lengths of 1 to 20 meters.

Features

- Unshielded twisted pair design provides thin, flexible, and reliable connectivity
- Gold-plated connectors ensure high quality and reliable transmissions along with improved corrosion-resistance
- Available in lengths from 1 to 20 m
- 24 AWG Conductor for high-speed network connections
- Ideal for ATEN extender solutions

Specifications

Environmental	
Operating Temperature	60°C
Rating	UL, CSA
Physical Properties	
Cable Length	20m
Cable Color	Grey
Cable Outer Dimension	6.3+-0.2mm
Conductor Gauge	24AWG
Conductor Material	Copper Clad Aluminum
Connector Plating	Copper alloy plated with gold
Connector Type	Shielded RJ45 male to male
Cable Jacket Type	PVC
Wiring Standard	TIA/EIA 568B.2
