

VE606

DVI/Audio Cat 5 Extender Wall Plate (US) (1920 x 1200@40m)

The VE606 DVI Over Cat 5 Extender Wall Plate extends DVI and audio signals up to 60m using Cat 5e cable. It supports popular wide screen formats and ensures excellent video quality over long distance transmissions. The VE606 combination can further extend the distance or multiply sources/displays.

The VE606 can be powered at either the Transmitter or Receiver side, and uses a second Cat 5e cable to transmit the power signal. The VE606's compact wall plate design does away with bulky cables and allows a neat and convenient installation. It is an ideal solution for function rooms, museums and any environment that requires equipment or cabling to be kept hidden from public view.
