

## RA2000

2U Hinged & Vented Rack Panel

ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be flexibly applied to meet different rack configuration needs.

The ATEN 2U Hinged & Vented Rack Panel complies with the latest EIA / ECA-310-E standards and is designed to quickly cover unused rack space, preventing foreign objects from entering and ensuring stable and safe operation of internal equipment.

This panel features a hinged design that supports both left and right opening directions, allowing flexible adjustment based on room layout and enhancing the convenience of maintenance and inspection tasks for IT personnel. The front ventilation holes help maintain proper airflow and cooling efficiency within the rack. Compatible with ATEN and other 19-inch standard racks.

### Features

- Compliant with the latest EIA / ECA-310-E standards
- Quickly covers unused rack space to prevent foreign object intrusion and protect equipment
- Hinged design supports left or right opening, adaptable to various space requirements
- Ventilation slots promote internal airflow and heat dissipation
- Compatible with ATEN and other brands of 19-inch racks
